RUSSIA'S HUGE ARMIES AND IMMENSE RESOURCES

Excite the Wonder and Increase the Apprehension of their Enemies

SUCCESSFULLY WAGING WAR FROM THE BALTIC TO THE PERSIAN SEA—FIGHTING CONTINUES TODAY WITHOUT MARKED RESULT ON ALL FRONTS

(Associated Press)

London, July 12.—The recovery of the Russian armies since their 1915 defeats and their apparently inexhaustible supply of guns and ammunition, continues the source of wonder among military writers. There are at least six great Russian armies engaged against the Austrians and Germans on Russia's western front. All are using great quantities of ammunition. The Russians in Armenia and Persia have been fighting the Turks vigorously for months. A few weeks ago these were compelled to fall back. This week the Russians again resumed the offensive, causing the Turks to retire twenty-five miles. Meanwhile the armies south of the Pinsk marshes are fighting a pitched battle with the Teutons along the Stokhod river. It will probably be some days before a decision is reached as the Teutons are fighting hard to save Kovel. North of the marshes, the fighting is confined largely to artillery. In Galicia the Russians are reforming to continue the offensive.

MOST QUIET NIGHT IN MANY MONTHS

London, July 13.—There was no important fighting last night on the Verdun front or on the French section of the Somme front, according to the Paris war office. Heavy German bombardment on portions of Verdun front and intermittent fire on the Somme front are reported. The French penetrated a German trench in the Champagne region, taking some prisoners. Two German raids in the Argonne were repulsed.

NO IMPORTANT RESULTS

London, July 13.—Fighting continues at various points on the Somme front, says the British statement, but there has been no change in the situation.

ANOTHER SUBMARINE

IS ON THE WAY

Baltimore, July 13.—The super-submarine Bremen, sister ship of the Deutschland, is now on its way to the United States, according to the statement made by Paul Hilken, agent of the German company which owns the vessels. Hilken declined to say at what point the Bremen will land or when. All details of the Deutschland's voyage have been turned over to Count von Bernstorff to be used in his efforts to have the United States declare the Allies' blockade of Germany ineffectual and illegal. The Bremen brings a cargo of drugs and chemicals to this country, as did the Deutschland.

ATLANTIC NO LONGER

SAFEGUARD TO AMERICA

Berlin Wants to Bulldoze Us Into Trying to Break the British Blockade

Amsterdam, Holland, July 13.—The arrival of the Deutschland at Baltimore is explained here as a warning to the United States that she is within reach of German submarines. German militarists will attempt to use this fact to force the United States to demand that Great Britain must cease to use illegal methods on sea for the obstruction of commerce. German newspapers take the stand that the British blockade is now broken and must no longer be recognized by neutrals.

SHOULD SLOAN'S

LINIMENT GO ALONG?

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morning. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment," writes one vacationist. "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets. Adv. 2

The ladies of Lake Weir W. C. T. U. held their annual picnic on July 4th at Stanton on Lake Weir. The entire neighborhood turned out, also guests from a distance. The usual set of races by old and young were indulged in, many of them causing much amusement. A bounteous dinner was spread under the large oaks, to which all did justice. A short program was gone through with, viz: Singing, America. Recitation, "A Promise," by Vivian Peter.

There was to have been a swimming contest, but a shower coming up prevented, although many went in bathing. The ladies sold ice cream during the day. All returned home expressing a desire to repeat it one year hence. Reporter.

Asked what the Coast Line had decided to do with regard to the moving of the union station, Mr. Murchison said that he would rather not say anything until the conference with the Seaboard officials and council at 5 o'clock. Whatever the Coast Line did, Mr. Murchison said, would be done simply to satisfy the sentiment of the people of Ocala. This seemed to be an intimation that the Coast Line was ready to stand its portion of the cost of the removal.
